

Languages Policy

The Languages Policy aims are to:

- integrate the language program into a coherent study pathway, where possible;
- widen members' choice of courses and maintain equitable access;
- provide classes with members of similar language skill levels;
- facilitate progression by members to higher levels where possible.

Enrolment Rules:

1. During the initial enrolment period for Yearlong Courses members are restricted to enrol in a maximum of two language courses. Before Term 1 commences, this rule will be suspended to allow enrolment in additional language courses where places are available and subject to tutor approval.
2. Tutors set the prerequisites to meet the language requirements for the class and to decide if an applicant meets these prerequisites. This may involve testing.
3. Enrolment in most of the language courses is provisional such that interested members will be waitlisted until the tutor approves the enrolment.
4. The tutor may give enrolment priority to continuing language students who are progressing to a higher level of a language course.
